

Scenario: planting a tree

Events:

Script event	Webanno label	Example
1. decide on a tree	choose_tree	I went to the nursery and picked out _{choose_tree} a small dwarf apple tree I wanted to plant.
2. get the tree (buy, receive etc.)	get_tree	I bought _{get_tree} it and brought home.
3. take the tree home	take_home	I bought it and brought _{take_home} home.
4. find a place for the tree	find_place	I chose _{find_place} an area of our yard with lots of sun.
5. get the gardening tools	get_tools	Then I took _{get_tools} a shovel and began preparing the hole to place the tree in.
6. dig a hole	dig_hole	I dug _{dig_hole} a hole just a little bigger than the roots and put some fertilizers in it.
7. place fertilizers	place_fertilizers	I dug a hole just a little bigger than the roots and put _{put_fertilizers} some fertilizers in it.
8. unwrap the root of the tree	unwrap_root	I removed _{unwrap_root} the tree from the pot it came in and gently placed it in the hole.
9. place the root in the hole	place_root	I removed the tree from the pot it came in and gently placed _{place_root} it in the hole.
10. refill the hole with the dirt	refill_hole	I shoveled _{refill_hole} the dirt back into the opening and tamped it firmly around the base of the tree.
11. tamp the dirt around the base of the tree	tamp_dirt	I shoveled the dirt back into the opening and tamped _{tamp_dirt} it firmly around the base of the tree.
12. water the tree	water	Then I took the water hose and watered _{water} the tree.
13. tie some stakes up	tie_stakes_up	I also tied _{tie_stakes_up} some stakes up to keep the tree level upright.

Participants:

Participant & Webanno label	Script event
dirt	Then, we shoveled dirt _{dirt} into the holes to fix the apple trees in place.
fertilizer	Then I placed some fertilizer _{fertilizer} in the bottom of the hole.
gardener	Then I _{gardener} placed some fertilizer in the bottom of the hole.
gardening tool (shovel, hose)	I used my garden shovel _{gardening_tool} to break up the grass and dig the hole.
hole	Then I placed some fertilizer in the bottom of the hole _{hole} .
location in garden	The tree I had was some kind of evergreen tree and I planned to plant it in the front yard _{location_garden} .
root	Then I unwrapped the trees roots _{root} and very, very carefully place the tree into the hole.
seeds	We found spots in our neighborhood that would allow us to fill it with soil and plant our seeds _{seeds} .
shop (where you can buy trees)	I went to the local nursery _{shop} and asked them for advice on what kinds of trees would do well in my area.
staff (at the shop)	I went to the local nursery and asked them _{staff} for advice on what kinds of trees would do well in my area.
stake	Once the mulch was added, I put a stake _{stake} in the ground and tied it to the tree.
time	We had to dig a fairly large hole and it took several hours _{time} .
tree	I went to the nursery and picked out a small dwarf apple tree _{tree} I wanted to plant.
water	I put the small tree in the hole and filled the hole with water _{water} .
wrapping (for the root)	I unwrapped the burlap _{wrapping} from around the root ball of the tree and placed the tree into the hole.
