

Scenario: going on a train

Events:

Script event	Webanno label	Example
1. get to the train station	get_train_station	This morning, I headed _{get_train_station} to the train station.
2. check the time-table	check_time-table	I looked _{check_time-table} at the schedule of departing trains and selected _{check_time-table} the time I wanted to leave.
3. get the tickets (book online, buy in the ticket office etc.)	get_tickets	I paid _{get_tickets} for my ticket and went to the platform.
4. get to the platform	get_platform	I paid for my ticket and went _{get_platform} to the platform.
5. wait for the train	wait	After waiting _{wait} for a few minutes, my train arrived and was ready to be boarded.
6. the train arrives	train_arrives	After waiting for a few minutes, my train arrived _{train_arrives} and was ready to be boarded.
7. get on the train, board	get_on	After waiting for a few minutes, my train arrived and was ready to be boarded _{get_on} .
8. find place to seat/stay	find_place	I found _{find_place} a nice seat by the window and settled _{find_place} in for the ride.
9. the train departs	train_departs	Shortly after, the train departed _{train_departs} .
10. spend time during the ride (read, watch others, sleep, look out of the window, stay sitting, talk)	spend_time_train	Then I spent _{spend_time_train} the train ride reading _{spend_time_train} some books that I had packed, sleeping _{spend_time_train} , and looking _{spend_time_train} at the scenery.
11. conductor comes and checks the tickets	conductor_checks	After a while the train's conductor walked down _{conductor_checks} the aisles to check _{conductor_checks} our tickets.
12. the train arrives at the target destination	arrive_destination	When the train got _{arrive_destination} to New York City I prepared to get off the train.
13. get up and move to the exit	move_exit	I went _{move_exit} to the exit and pressed the door opener.
14. the door opens	door_opens	The doors opened _{door_opens} and I could get off the train.
15. get off the train	get_off	The doors opened and I could get off _{get_off} the train.

Participants:

Participant & Webanno label	Script event
card/ticket	We purchased tickets _{card/ticket} online immediately after a quick breakfast.
destination	I was going to visit some friends in Florida _{destination} and decided to ride a train.
door	When it was time to get on the train, the doors _{door} opened and a conductor took each of our tickets as we got on the train.
in-train entertainment (newspaper, magazine, window)	I brought a book _{in-train-entertainment} with me to read, and some snacks _{in-train-entertainment} in case I got hungry.
line	I waited in line _{line} to board the train.
location (train)	Pretty soon the conductor walked up and down the aisle _{location_train} asking to see everyone's ticket.
luggage	We stowed our luggage _{luggage} and discovered how the beds worked.
passenger	We _{passenger} stowed our _{passenger} luggage and discovered how the beds worked.
payment means/fare	I made sure I had enough money _{payment_means/fare} to pay the train fare _{payment_means/fare} .
personal belongings	I decided to pull out my laptop _{personal_belongings} and check emails and get some work done during my hour and a half train ride.
platform	I paid, then made my way to the platform _{platform} for my train.
railway coach (location in the train)	We had our choice of coaches _{coach} but we chose the cheapest version.
seat (train)	We carried our suitcases onto the car, stored our luggage appropriately, and took our assigned seats _{seat} .
ticket office	I grabbed a small bag and we went to the ticket window _{ticket_office} to purchase our tickets.
time-table	I got on my computer and pulled up the train schedules _{time-table} to see if there was one that would work for me.
time/date	I checked the departure time _{time/date} and went to the platform.
train	When the train _{train} arrived we lined up to board it.

train staff (conductor)	Pretty soon the conductor _{staff} walked up and down the aisle asking to see everyone's ticket.
train station	We parked our car and got to the station _{train_station} within a few minutes.
trip	I could get a room with a bed but the trip _{trip} was not that long.
