

Scenario: repairing a flat bicycle tire

Events:

Script event	Webanno label	Example
1. ride the bike	ride_bike	I ride _{ride} my bike to work everyday.
2. notice problem	notice_problem	I noticed _{notice_problem} that the front tire on my bicycle felt rather wobbly and was most likely flat.
3. get off the bike	get_off	I safely got off _{get_off} to examine the tire wheel.
4. lay bike on side	lay_bike_down	I laid _{lay_byke_down} the bike over on its side and inspected the rim for damage.
5. get new tire	get_tire	I had a bicycle repair kit and found _{get_tire} a spare tire.
6. take out tools	get_tools	I got _{get_tools} my tools and loosened and removed the nuts holding the tire on the bike.
7. loose nut holding the wheel	loose_nut	I got my tools and loosened _{loose_nut} and removed the nuts holding the tire on the bike.
8. free the wheel	free_wheel	When the wheel was _{free_wheel} free, I took the tire tool and wedged it between the wheel and tire to remove the rubber.
9. take tire off the rim	take_tire_off	I looked in my bike pack and found the tool that help take _{take_tire_off} the tire off the rim.
10. examine the tire	examine_tire	I safely got off and examined _{examine_tire} the tire wheel.
11. remove the damaged tire	remove_tire	After removing _{remove_tire} the tire and the tube inside, I used my tools to put a new tube inside of the tire.
12. put a patch/seal the damaged part	put_patch/seal	After I had patched _{put_patch/seal} the hole, I waited for the adhesive material to dry
13. put the new tire on the wheel	put_new_tire	I then stretched _{put_new_tire} the new tire out over the wheel and affixed _{put_new_tire} it.
14. pull the air pin	pull_air_pin	I put the tire back onto the wheel and pulled _{pull_air_pin} the air pin through the hole on the wheel.
15. refill the tire with air	refill_tire_air	I took out my air pump and began to refill _{refill_tire_air} the tire with air.
16. check the new tire	check_new_tire	I started to ride my bike down the road to test _{check_new_tire} the bicycle and the tire

Participants:

Participant & Webanno label	Script event
air	I pumped some air _{air} into the tire to locate the hole.
bicycle	I noticed that my bicycle _{bicycle} had a flat tire one day.
